No Expectation of Privacy: Students and any user have no expectation of confidentiality or privacy with respect to any usage of a Chromebook, regardless of whether that use is for school-related or personal purposes, other than as specifically provided by law. The school may, without prior notice or consent, log, supervise, access, view, monitor, and record use of student Chromebooks at any time for any reason related to the operation of the school. The school will not be responsible to provide backup devices for students.

Operating System, Updates and Virus Protection: Students may not use or install any operating system on their Chromebook other than the current version of Chrome OS that is supported and managed by the school. The Chromebook operating system, Chrome OS, updates itself automatically. Students do not need to manually update their Chromebooks. Chromebooks use the principle of "defense in depth" to provide multiple layers of protection against viruses and malware, including data encryption and verified boot. There is no need for additional virus protection.

Content Filter: The school utilizes an Internet content filter that is in compliance with the federally mandated Children’s Internet Protection Act (CIPA). All Chromebooks will have all Internet activity protected and monitored by the school while on or off campus. The student is not responsible for the malfunctioning of his/her chromebook (For example: the problem is not the result of abuse or mishandling as described in this 1:1 agreement). 2. There is a loaner chromebook available for the student to check-out.

If the malfunction of the chromebook is the result of the student’s abuse or mishandling, the incident must be reported to the principal (or designee) to follow up with applicable disciplinary actions and/or fees.
